

**Burlington School District**

**H 9: RELATIONS WITH GOVERNMENTAL AUTHORITIES**

**Former Policy KN**

The Burlington Schools serve the children, the parents, and all the residents of Burlington. It is in the citizens' interest to keep other agencies and departments in the City which deal with the security, health, safety and well being of the citizens informed about the activities, functions and concerns of the School Board.

Therefore, the Board directs the Superintendent to keep the elected and appointed officials of the city informed regarding those Board activities which may be of mutual interest.

Similarly, the Board encourages all elected and appointed officials to bring matters of mutual interest to the Board's attention.
